SUMMARY

Computer Science undergraduate focused on backend automation, browser extensions, and security-aware systems. Experienced in building reliable services, workflow automation, and practical tools. Interested in backend, infrastructure-adjacent, and security-oriented roles.

ACHIEVEMENTS

- Built an automated service that detects semester result publication and instantly emails results to students.
- Worked with a professional technical team to conduct large-scale network load testing for college infrastructure.
- Identified and responsibly disclosed security vulnerabilities in a production EdTech platform.

SKILLS

Languages	Python, JavaScript, TypeScript, Java, C++
Backend	Node.js, Express, REST APIs
Frontend	React, HTML, CSS
Databases	MongoDB, PostgreSQL, SQLite
Browser	Chromium Extensions (Content & Background Scripts)
Tools	Git, Linux, Selenium, Burp Suite
Concepts	HTTP, Auth, Automation, Web Security Basics

PROJECTS

- **SGPA Calculator** – Student-focused GPA calculator with a clean, minimal interface for instant grade computation that is used by 600+ students.
- **Guest Management System** – Hotel administration system for guest check-ins, bookings, and records with role-based access control.
- **Hotel Landing Page** – Responsive hotel website highlighting amenities, nearby attractions, and contact details.

EXPERIENCE

Freelance Web Developer

2024 – Present

Built and deployed responsive websites for hotels and homestays, focusing on performance, clarity, and real client requirements.

EDUCATION

Integrated M.Tech in Computer Science and Engineering

2023 – 2028

Sri Krishna College of Engineering and Technology (SKCET)
